SUMMARY

A software engineer with a passion for problem-solving, learning new concepts, and creating innovative new projects. As a front-end engineer, I love building captivating and interactive user experiences and working together with a skilled designer to bring ideas to life. My biggest goal at this time would be to work as at a company that takes exceptional design and user interaction into account and that prioritizes growth for its employees. I look forward to using my current skills to contribute to the success of any company I end up working with and continuing my education in software development.
